Why are you trying to stop something that works great in all major cities. The cabs in myrtle beach are dirty and so are the drivers. In addition they are much more expensive than Uber and take longer to arrive.

Uber is a lot safer than the random cabs I hail, and better service.

South Carolina Public Service commission,

I write today to express my concerns and disappointment towards the recent decision to order Uber to cease and desist operations. When I read the headline in the Post and Courier this morning, I thought I must have misinterpreted it. Isn't South Carolina a Right to Work State? Isn't forcing Uber to shut down operations counter intuitive of that?

Uber provides the best public transportation service I have encountered in Charleston, SC. I use the CARTA system to get to work, it is not as reliable. Taxi cabs are even less reliable, both in terms of arrival time and fees. Uber provides an extremely useful public service, it keeps drunk drivers off the road. Keeping drunk drivers off the road should be a priority in South Carolina. Please reverse this decision before more lives are lost to drunk drivers.

Sincerely,  
Katie Monk

Uber is a great technology. There is no need to try a implement more regulations on this technology.
